To Whom It May Concern:

By means of this letter, Derjers International would like to express our gratitude for the wonderful service that we received from Steve of Inline Filling Systems.

Steve is pleasant, patient and genuinely well rounded. His attention to detail and willingness to work hard were consistently demonstrated throughout the time that he spent in our facilities installing our new filling machine. In addition, he made certain that our staff understood each step of the process and we have been impressed with his genuine interest to ensure that we were satisfied with the end result.

We are more than happy to recommend Steve to any company as an excellent service representative and would not hesitate to act as a reference in the future.

Thanks again.

Respectfully,

Derrick Cooley
President
Derjers International
